AI based group traveling concierge

Target User Profile

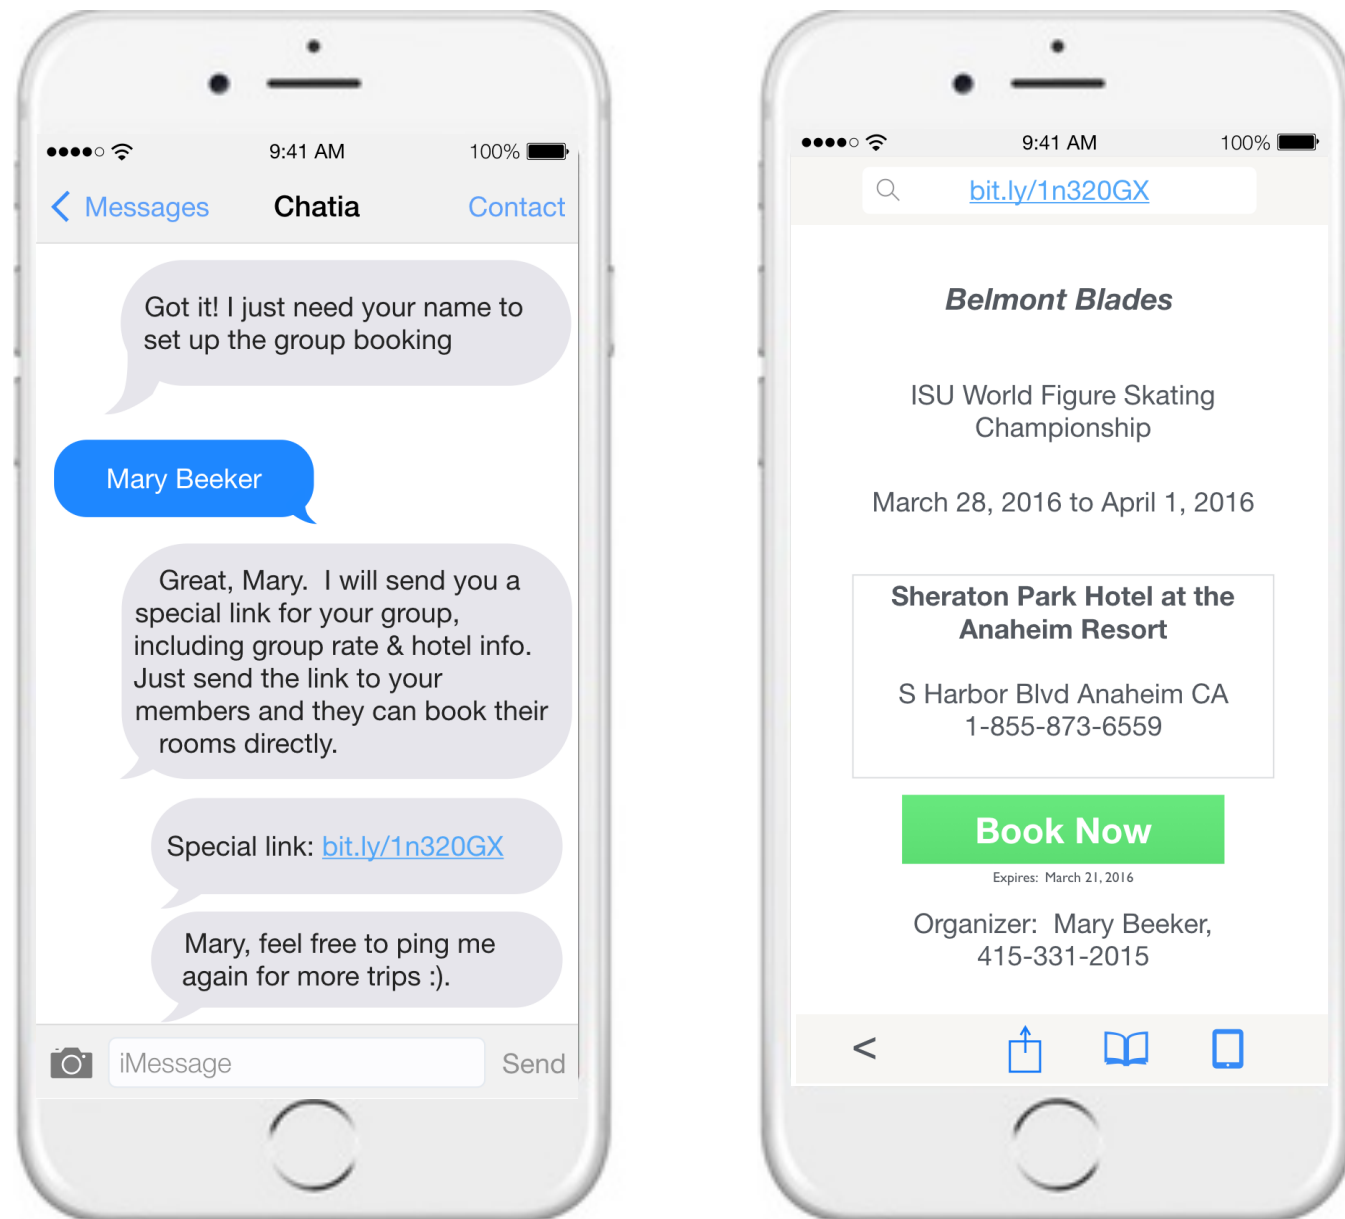

- Informal travel groups
 - High school & college recreational teams
 - Corporate events
 - Weddings
- A single decision maker for the group on hotel bookings
- Each group member books his/her own hotels
- \$470B annual revenues in group hotel booking in the US (mostly booked off-line)

Pain Points

- Lack online information for group booking (rates, availability)
- Need to rely on calling individual hotels for rates
- Need to manually compile and distribute negotiated hotel package to the group

Meet _____
